

A joint BMF and RYA initiative

Wildlife Log Book Competition Attention All ships!

The Green Blue, the environment programme for the Royal Yachting Association and the British Marine Federation in the UK, is running a fantastic competition open to all individuals, of all ages, on The Tall Ships Race in 2011.

All you have to do is keep a record of the wildlife that you see as you go from Greenock to Lerwick. Use our **FREE wildlife guide** to help you identify what you see. Then choose your favourite sighting and submit it to The Green Blue in Lerwick and keep your fingers crossed.

The log books will be judged by a panel of experts who will be looking for:

- Excellent wildlife observations, your log book should record everything about your sighting such as observations about the behaviour of the wildlife as well as details about its location.
- Good sketches and photos, include images and pictures of the wildlife you see.
- Basic information including species, lat/long, time, date, weather and sea state.

Remember

It doesn't matter how much wildlife you see, you can only submit your favourite single sighting or record on one sheet of (max) A4 paper. **You must include your name, age and contact details including address and email.**

Bad Weather Clause—if the weather is horrible or you are always on night watch and don't see any wildlife, then there will also be a special prize for the best **IMAGINARY** wildlife sighting. Be wild, make it up, the more crazy your sea monster the better chance you have of winning one of our great prizes.

Prizes

We have some great prizes for our winners including state of the art Henri Lloyd sailing kit, the best marine wildlife guides and wonderful field binoculars to help you enjoy wildlife spotting forever more!

You can fax, email or post your entries to us at The Green Blue by the end of August 2011. The winners will be selected by our team of wildlife experts and notified by the end of September 2011.
